

NYSE:VNRX

Our mission is to save lives and improve outcomes for millions of people and animals worldwide by advancing low-cost, epigenetic early detection and treatment monitoring tests.

Commercial launches worldwide in animal health (2022-2024); human products to follow

Combined TAM >\$10 billion

Derisked R&D and Commercial Strategy: Reported First \$1 million Revenue 2024

Commercial Progress

- Nu.Q® Vet Cancer test now available in 20 countries
- Solid >110,000 tests and test components Q1-Q3 2024
- Received \$23 million in upfront and milestone payments to-date
 - Additional \$5 million milestone payment (feline) anticipated 2025
- Multiple international partnerships launched
- TAM >\$750 million

Revenue Expansion

- Simple, low cost, recurring revenue generating tests performed on standard lab equipment
- Clinical Partnering: multiple near-term licensing opportunities progressing
- Direct and Indirect sales of CE-marked products in Europe, as hospitals evaluate for routine clinical use

Large Unmet Needs

- Lung Cancer Screening screening, prognostics and MRD represent a \$1.8B opportunity
- Sepsis testing and monitoring ICU patients alone is a ~\$1B+ opportunity
- Other adressable markets of investigation include Acute Kidney Injury (AKI), Acute Respiratory Distress Syndrome (ARDS) and use in the Emergency Department >\$10B opportunity

Strong IP

- 81 patents granted
- 129 pending internationally
- Patent coverage up to 2044

Licensing Portfolio: Platform stable, reproducible
