The Board of Directors  
Standard Capital Corporation

We have reviewed the condensed balance sheet of the above Company as of November 30, 2000, and the related statements of operations and the statements of cash flows for the three months ended November 30, 2000 and 1999 and the period September 24, 1998 (date of inception) to November 30, 2000. These financial statements are the responsibility of the company's management.

We conducted our review in accordance with standards established by the American Institute of Certified Public Accountants. A review of interim financial information consists principally of applying analytical procedures to financial data and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with generally accepted auditing standards, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the accompanying financial statements for them to be in conformity with generally accepted accounting principles.

PART 1 - FINANCIAL INFORMATION

ITEM 1. FINANCIAL STATEMENTS

The accompanying balance sheet of Standard Capital Corporation (an exploration stage company) at November 30, 2000 (with comparative figures as at August 31, 2000) and the statement of operations and statement of cash flow for the three months ended November 30, 2000 and 1999 and for the period from September 24, 1998 (date of incorporation) to November 30, 2000 have been prepared by the Company's management and they do not include all information and notes to the financial statements necessary for a complete presentation of the financial position, results of operations, cash flows, and stockholders' equity in conformity with generally accepted accounting principles. In the opinion of management, all adjustments considered necessary for a fair presentation of the results of operations and financial position have been included and all such adjustments are of a normal recurring nature.

Operating results for the quarter ended November 30, 2000, are not necessarily indicative of the results that can be expected for the year ending August 31, 2001.

STANDARD CAPITAL CORPORATION  
(An Exploration Stage Company)

NOTES TO FINANCIAL STATEMENTS

November 30, 2000

(Unaudited - Prepared by Management)

1. ORGANIZATION

The Company was incorporated under the laws of the State of Delaware on September 25, 1998 with the authorized common stock of 25,000,000 shares at \$0.001 par value.

The Company was organized for the purpose of acquiring and developing mineral properties. At the report date mineral claims, with unknown reserves, had been acquired. The Company has not established the existence of a commercially minable ore deposit and therefore has not reached the development stage and is considered to be in the exploration stage (see note 3).

The Company has completed one Regulation D offering of 1,295,000 shares of its capital stock for cash.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Accounting Methods  
-----

The Company recognizes income and expenses based on the accrual method of accounting.

Dividend Policy  
-----

The Company has not yet adopted a policy regarding payment of dividends.

Income Taxes  
-----

On November 30, 2000 the Company had a net operating loss carry forward of \$27,485. The tax benefit of \$8,246 from the loss carry forward has been fully offset by a valuation reserve because the use of the future tax benefit is doubtful since the Company has no operations. The loss carry forward will expire in 2022.

Earnings (Loss) per Share  
-----

Earnings (Loss) per share amounts are computed based on the weighted average number of shares actually outstanding.

-8-

NOTES TO FINANCIAL STATEMENTS

November 30, 2000

(Unaudited - Prepared by Management)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Cash and Cash Equivalents  
-----

The Company considers all highly liquid instruments purchased with a maturity, at the time of purchase, of less than three months, to be cash equivalents.

Capitalization of Mineral Claim Costs  
-----

Cost of acquisition, exploration, carrying and retained unproven properties are expensed as incurred. Costs incurred in proving and developing a property ready for production are capitalized and amortized over the life of the mineral deposit or over a shorter period if the property is shown to have an impairment in value. Expenditures for mining equipment are capitalized and depreciated over their useful life.

Environmental Requirements  
-----

At the date of the balance sheet environmental requirements related to the mineral leases acquired (Note 3) are unknown and therefore any estimate of any future cost cannot be made.

Financial Instruments  
-----

The carrying amounts of financial instruments, including cash, accounts payable and accrued liabilities are considered by management to be their standard fair values.

Estimates and Assumptions  
-----

Management uses estimates and assumptions in preparing financial statements in accordance with generally accepted accounting principles. These estimates and assumptions affect the reported amounts of the assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenues and expenses. Actual results could vary from the estimates that were assumed in preparing these financial statements.

-9-

STANDARD CAPITAL CORPORATION  
(An Exploration Stage Company)

NOTES TO FINANCIAL STATEMENTS

November 30, 2000

(Unaudited - Prepared by Management)

3. AQUISITION OF MINERAL CLAIM

The Company acquired one 18 unit metric claim known as the Standard claim

situated within the Bridge River gold camp near the town of Gold Bridge, 160 kilometres north of Vancouver, British Columbia, with an expiration date of February 23, 2001. The renewal cost of these claims is \$1,800. The costs of staking and filing have been expensed.

4. RELATED PARTY TRANSACTIONS

Related parties acquired 7.7 % of the common shares issued for cash.

5. GOING CONCERN

The Company will need additional working capital to be successful in its efforts to develop the mineral lease acquired and therefore continuation of the Company as a going concern is dependent upon obtaining additional working capital and the management of the Company has developed a strategy, which it believes will accomplish this objective through additional equity funding, and long term financing, which will enable the Company to operate for the coming year.

-10-

ITEM 2. PLAN OF OPERATIONS

The Company plans to renew its one 18 unit metric claim known as the Standard claim in the Bridge river gold camp which expires on February 23, 2001. The cost of renewal will be \$1980.00 Canadian. Management will consider undertaking a work program in the near future.

Liquidity and Capital Resources  
-----

At the present time the Company does not have sufficient funds on hand for it to undertake a work program. Management has not yet decided upon the best method to raise funds to meet the costs of an exploration program on its mineral claims.

Results of Operations  
-----

There have been no operations during the current period.
